## EARNINGS OF TONOPAH PLACER

It is estimated that the gold output from the dredges operating on the Blue river placers, near Breckenridge, Colo., for the month of June was slightly over \$175,000. This is probably greater than for several months in the past. All the dredges are enjoying the privilege of large clean-ups. No. 3 dredge of the Tonopah Placers company is working rich ground in French gulch, near the home of F. Z. Hunt, of the French Gulch Dredging company. The latter company's dredge is operating in the same gulch, opposite the Wellington mine.

No. 1 dredge of the Tonopah Placers company is now working near the right-of-way of the Colorado & Southern. This dredge will soon cross this right-of-way, and will continue up the Blue river valley on the opposite side of the track from where they are now working. The Tonopah company has had a crew of men engaged during the past six weeks building a new county road along the west side hill to take the place of the old road, which will be dredged. This ground is being tested by a Keystone drill, and the values evidently warrant a great expense of building new roads and the tearing up of the railroad.

No. 2 dredge is working the ground of the Farncomb Hill Gold Dredging company, in the upper Swan valley. The value of this ground is greater now than at any time since operations were begun on it.

## CARLOAD A WEEK IS SHIPPED FROM CASHBOY

The Cash Boy is getting into its stride with regular shipments that are of a higher order than the average product of this district. The company ships to both the Western Ore Purchasing company and the Belmont mill at Millers, the high grade product going to the former. The water level is now down to a depth of 1580 feet in the mine where they are raising from the west drift to get a stope started. The bottom of the shaft is 1450 feet and the mine carried the development 130 feet further. With immunity from water the management feels that it will be able to sustain shipments at the rate of a carload a week of good milling grade.

## MRS. SHEETS BODY WILL BE REMOVED TO LEADVILLE

The remains of the late Mrs. Thomas R. Sheets arrived here at midnight via Goldfield and were taken to the residence of Mrs. John D. Murphy, mother of the dead woman, where many friends of the family called and paid their last respects to one whom they loved. Tomorrow morning the body will be removed from the mother's home on Mizpah Hill and escorted by personal friends of the family, will be taken to the train for conveyance to Leadville. If nothing interferes the body will reach the destination Sunday and the funeral will take place Monday morning. Mr. Thomas R. Sheets and Mrs. John D. Murphy will accompany the body.

## MOAPA MELONS INTRODUCED TO TONOPAH CUSTOMERS

The Bonanza is indebted to C. M. Sain, of Logan, Nevada, for a crate of the most luscious cantaloupes that ever graced a man's table or sweetened the human palate. The Moapa melon is not well known here as most of the crop has been shipped to the far east where it is highly prized by connoisseurs. Of recent years the melon area has increased in extent until now there is a surplus available for the home trade. This crate came from Logan, Clark county, and although it was delayed in transit, the contents arrived in better condition than the far famed Rocky Ford melons at their best. The melons were of the McBarney pack for the Moapa Garden company.

## RESIGNATION OF BRENT ACCEPTED BY PRESIDENT

(By Associated Press.) WASHINGTON, July 26. — The president has accepted the resignation of vice chairman Brent of the shipping board who sided with Denman.

## GERMAN PRIZES TAKEN BY BRITISH DESTROYERS

(By Associated Press.) AMSTERDAM, July 26. — Two German vessels were taken to England by British destroyers. A torpedoed German steamship arrived at Den-hilde today.

## NORWEGIAN FOOD COMMISSION ARRIVES

(By Associated Press.) ATLANTIC PORT, July 26. — Dr. Nansen the Arctic explorer and six other Norwegians, a commission on the food question, have arrived.

FOR SALE — Victoria and Singer sewing machine. Inquire 10 Bryan Ave. 939-J-24-15

## LOBBY COERCION

(Continued from page one)

"Under no circumstances has the organization advocated the improvement of any particular project." "But the object of the organization was to secure as great appropriations as possible from congress," persisted Senator King.

"Not at all," replied Senator Randall. "Not as great as possible, but to secure appropriations enough to finish work waterways of this nation." "I know that the Democratic party, of which I am a member," said Senator King, "frequently denounced manufacturers of the United States who form organizations for the purpose of coming to congress in order to obtain tariff legislation. I do not see very much difference between organizations of that character which we have denounced vehemently and so often, and other organizations whether they denominated themselves organizations for rivers and harbors or not, the object of which is in part to come to congress and try to secure money out of the treasury of the United States."

"I will say to the senator from Utah," Senator Randall replied, "that there is a vast difference between such a lobby and a great public organization like the National Rivers and Harbors congress, composed of people from every state in the union where there are any waterways worthy of improvement."

"The action of the secretary of that organization," said Senator Kenyon, "in building up a backfire has been shown by the senator from Washington in his state. It is hardly a very honorable occupation."

Senator Kenyon made a long speech against the appropriation bill, pointing out the many small creek and rivers with negligible commerce for which appropriations are proposed.

Senator Sherman of Illinois, Republican, declared the measure "is no more connected with the national defense than my last doctor's bill."

## NOW IS THE TIME TO ORDER

W. D. Elliott, the merchant tailor on Brougher avenue, opposite the Mizpah hotel has received a choice assortment of the latest pattern woollens which he offers his customers at prices that are no higher than what are charged by any first class outside firm. Mr. Elliott has four first class tailors and all suits are made and tried on here so there is no chance of getting a misfit. Woollen goods are going up and men who wanted suits should place their orders while the assortment of patterns holds out.

## TRANSPORTATION DENIED ALL BUT RED CROSS

(By Associated Press.) NEW YORK, July 26. — All avenues for the distribution of war relief through the American clearing house will be closed except to the Red Cross after September first. This action is due to lack of transportation.

## Wonderful Soda--

That's what they all say — and why wouldn't they say it? It certainly is the most wonderful soda we have ever seen, and probably the very best soda that can be produced today. That is the reason. First, purity of ingredients, then careful manipulation, then a sanitary formula and the cleanest and neatest service. That's what makes it good. That should appeal to you, and induce you to meet and treat at our fountain, now and for the balance of the summer. Any flavor you want; all the old-timers, and the newest ones.

## PERSONAL

LOUIS GEBHARDT returned to Manhattan last evening after transacting business in Tonopah.

J. W. BERG motored over from Round Mountain last evening with a party of friends.

JOS. E. CONNOR, proprietor of the Central hotel at Manhattan, is in Tonopah today.

J. C. DURHAM, president and manager of the Durham Sales company of Reno, is a guest at the Mizpah.

BERT McFADDEN, Sr., former superintendent of the Manhattan Consolidated, is a visitor to Tonopah today.

GEORGE B. ACKERMAN, a mining man of Orizaba, is in Tonopah today, accompanied by Mrs. Ackerman.

T. BERGERSON, traveling freight and passenger agent for the Southern Pacific railway, is here on business for the company.

PERCIVAL NASH, connected in an official capacity with a number of Manhattan mining companies, spent the past day or two in this city.

R. E. CONNOLLY, publicity manager of the San Francisco stock exchange, is in Tonopah today after paying a visit to Manhattan. He leaves for the coast in the morning.

## ALL ENEMY VESSELS DAMAGED IN SIAM

(By Associated Press.) BANGKOK, Siam, July 26. — Machinery of the Austro-German vessels seized were found damaged. All male enemy aliens have been interned and their business wound up.

## AMUSEMENTS

## BUTLER THEATER

Today's production bears the title "The Night Workers" featuring Marguerite Clayton and Jack Gardner. The picture will have one hour and 15 minutes screen time. The Night Workers as the title implies will portray the lives of people who work at night. The plot is laid in a metropolitan newspaper office, and unfolds many interesting details in the making of a great public journal.

Its name is not confined to the newspaper workers, however, J. Bradley Smollen for many years a newspaper man in New York and Chicago, is the author of the play. The play will be thoroughly interesting exposition of a condition that will never be eradicated. There always will be night workers. It is said that the best work Marguerite Clayton has done in her career as a photoplay actress is to be seen in "The Night Workers." Together with his feature will be seen Pathe Weekly with new news and good news.

Tomorrow Nance O'Neil in "The Final Payment" and a Fox comedy "The Final Blowout."

## LIGHT STEAMER LOSES BY FRANCE AND ITALY

(By Associated Press.) ROME, July 26. — Two Italian steamers were sunk during the week of July 22.

(By Associated Press.) PARIS, July 26. — During the week ending midnight July 22nd no French ships were lost. Six were attacked unsuccessfully.

All members of Tonopah Lodge, No. 974, and all visiting brothers are cordially invited to attend the big initiation and smoker. Plenty to eat and drink. Come 'one, come all. Thursday evening, July 26.

ENTERTAINMENT COMMITTEE Adv-J-25-12

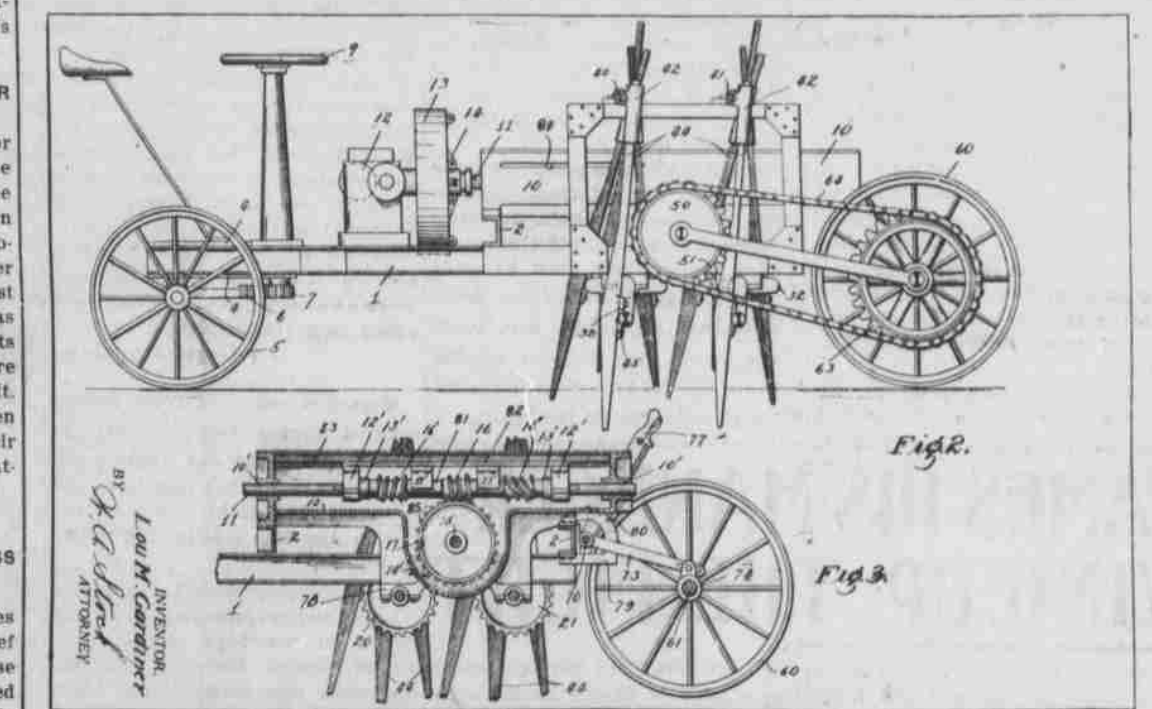

## GOETHALS IN FRANCE

(By Associated Press.) WASHINGTON, July 26. — Goethals expected soon to go to France as head of American army engineers.

## All Farm Work Revolutionized by This Wonderful Walking Tractor

It Walks--It Plows--It Cultivates--It Pumps--It Saws--

It will do Hauling and Trucking--and will do all the Power Work on Farm and Orchard

The opinion of the Meese & Gottfried Company of San Francisco, the eminent engineers and manufacturers of transmission machinery, should satisfy all skeptics. Here it is:

"I believe it to be substantiated that this is the only tractor, designed to meet the needs of the farm and supplanting entirely the use of draft animals. Besides this it will be able to do road traction to its full capacity at a speed of from four to five miles per hour. From the inspection I have made I fully believe it is the only feasible tractor that will do all the farm work." This report is signed as, "Respectfully submitted, H. T. Heselmeier, chief engineer."

The firm of Campbell & Kelly, Inc., of the well known foundry and machine works of Tonopah, after making a thorough investigation of the mechanical construction of the Walking Farm Tractor, pronounced it a very ingenious and unique arrangement for a practical farm tractor, which is capable of doing all the work on a farm that horses can do with far greater efficiency.

For the investor, the tractor business shows a field that is constantly expanding and one that now is in its infancy, which will pay greater dividends than most manufacturing concerns.

One California tractor concern in 1916, paid dividends aggregating \$2,000,000.

L. M. Gardiner, representing the company would be pleased to furnish further particulars in reference to the Walking Farm Tractor. His headquarters are at the Mizpah hotel.

## Efficiency on the Farm Raised by the Walking Farm Tractor

The war conditions demand a larger increase in our food production and in order to accomplish the same the farmer must resort to gasoline power machines for intensive farming. The inventor of the Walking Farm Tractor has made farming by machinery an extensive study, both in the United States and the European countries, and has found that a Tractor to be successful must do all the farm work, thereby doing away with draft animals on the farm, the cultivation of potatoes, beans, cabbage and all kinds of vegetables, also it must do all sorts of vineyard and orchard cultivating in combination with all of the hauling which is necessary for the farmer to do at a speed not less than eight miles per hour. The Walking Tractor can also be used for running pumps, hauling hay, stacking hay, the cutting of alfalfa, and, in fact, for everything that horses can do, and in just one-third of the time. It will be noticed that the Walking Tractor does not pack the soil (as all other tractors now on the market are bound to do more or less), while a machine that walks over the ground does not pack the soil, but sub-soils the same, which is so necessary to hold the moisture in dry farming.

By using the Walking Farm Tractor the farmer will increase his growth at least one-third per acre, and as the price of the Tractor is within reach of the small farmer there will be no doubt many thousands in operation within the next few years. The Walking Farm Tractor Company has been organized by Nevada people for the purpose of placing this wonderful machine on the market, as they thoroughly believe that it will revolutionize the old system of farming, and by doing so will be very profitable to the farmer in increasing his crop production.

It is a fact that were our farmers in position to buy efficient machinery (as the European farmers are) we would not have to coax them to stay on the farm, but it would make farming a gentleman's job, and in that way would be sought by many men who now prefer to eke out a bare living in the city.

The time is not far away when the farmer will find that he can raise more produce on a few acres, if properly cultivated and cared for, than on a larger acreage carelessly cultivated.

The government statistics show that in the state of California it costs the farmer \$114 per year to feed one of his horses, and as the Walking Farm Tractor can do the work complete of six horses, at the expense of less per day than it costs to feed one horse, the farmer must realize that he cannot afford to continue with the old methods.

The Walking Farm Tractor is operated by one man and does not require the attention of even one man, only when in actual use, and as the motive power is furnished by distillate, one can readily see that the operating expense is very small.

Capitalization \$500,000; Shares \$1.00 Each  
300,000 Shares in Treasury

This Tractor eliminates all horses on the farm. For information, address
